

Miniature GSM Listening Device GSM3000D

Listen to a conversation from anywhere in the world.

FEATURES

- § Unlimited Range
- § Measures just 63 x 41 x 21mm
- § Call from any Phone and Listen immediately
- § Exceptional Sound Quality (10m pickup)
- § Quad Band Technology for Worldwide Use
- § Can be used as a Tracking Device (UK only)

The GSM 3000D packs the latest GSM listening technology into a package measuring just 63 x 41 x 21 mm. Simply Insert a SIM Card and call the number from any phone to hear exactly what is going on in your absence with amazing clarity.

The GSM 3000D can be concealed in a home, office or car and works anywhere there is a mobile phone signal. Thanks to an ultra efficient design one charge lasts up to 10 days standby and 8 hours listening time. For long-term use the GSM 3000D can be permanently connected to any mains power supply.

UK customers can Track its location at any time via the internet making it a compact dual purpose surveillance device. Supplied with mains charger and protective carry case.
